

Greenbank Surgery - Complaints Procedure

Most problems can be sorted out quickly and easily, often at the time they arise with the person concerned and this may be the approach you try first.

Where you are not able to resolve your complaint in this way and wish to make a formal complaint you should do so, preferably in writing as soon as possible after the event and ideally within a few days, as this helps us to establish what happened more easily. In any event, this should be within 12 months of the incident, giving as much detail as you can.

If you are a registered patient you can complain about your own care. You are unable to complain about someone else's treatment without their written authority.

What we do next

We look to settle complaints as soon as possible.

We will acknowledge receipt within 3 working days, and aim to have looked into the matter within 10 working days. You may then receive a formal reply in writing, or you may be invited to meet with the person(s) concerned to attempt to resolve the issue. If the matter is likely to take longer than this we will let you know, and keep you informed as the investigation progresses.

When looking into a complaint we attempt to see what happened and why, to see if there is something we can learn from this, and make it possible for you to discuss the issue with those involved if you would like to do so.

When the investigations are complete your complaint will be determined and a final response sent to you.

Where your complaint involves more than one organisation (e.g. social services) we will liaise with that organisation so that you receive one coordinated reply. We may need your consent to do this. Where your complaint has been sent initially to an incorrect organisation, we may seek your consent to forward this to the correct person to deal with.

The final response letter will include details of the result of your complaint and also your right to escalate the matter further if you remain dissatisfied with the response.

Please be aware, that should a patient make a complaint, the Practice may need to provide information about the patient and treatment they may have received, to insurers and, or legal advisors.
